EDUCATION

Delaware State University

Expected: May 2026

Bachelor of Science in Computer Science

GPA: 4.0

Relevant Coursework: Data Structures & Algorithms I & II, Software Engineering, Data Science, Artificial Intelligence, Database Systems, Web Development, Operating Systems, Computer Networking

Awards: 2x Hackathon Winner, National President's List (6x), Presidential Scholarship, Computer Science Club Member

WORK EXPERIENCE

Pratico Consulting, LLC - AI Solution Software Engineer Intern (Remote)

Jan 2026 - Present

- Developed features across multiple mobile applications, including payments, authentication, and API integration
- Conducted system and user acceptance testing to ensure application performance and reliability

Microsoft - Software Engineer Intern (Seattle, WA)

Jun 2025 - Aug 2025

- Built C#/.NET automation tool migrating **96.6M+ users** to a unified authentication policy with built-in security checks
- Developed and integrated a migration API across 3 production codebases to support large-scale secure updates
- Implemented audit logging and rollback safeguards, increasing reliability and reducing risk during user migrations

Microsoft - Software Engineer Intern (Atlanta, GA)

May 2024 - Aug 2024

- Integrated a scalable push notification system in Microsoft Authenticator, enabling **1.2M+ users** to receive updates
- Architected end-to-end delivery by integrating Azure notification hub & Baidu SDK for device and token management
- Implemented testing and telemetry to monitor performance and optimize bottlenecks, ensuring system reliability

Delaware State University - Computer Science & Math Tutor (Dover, DE)

Aug 2023 - Present

- Tutored 100+ students/semester in Python, Java, and Data Structures, improving retention in core CS courses
- Conducted 30+ weekly small-group sessions, helping students solve complex coding challenges
- Designed algorithm-focused exercises to reinforce computational thinking and software design principles

Code Differently - Technical Consultant (Wilmington, DE)

Jun 2023 - Aug 2023

- Achieved a 100% student retention rate by mentoring 13 high school students through a full-stack web development curriculum (JavaScript, HTML, and CSS)
- Ensured deployment of 13 capstone projects through code reviews, targeted workshops, and 1-on-1 mentorship
- Enabled multiple students to secure job offers based on the technical strength and functionality of their projects

PROJECT EXPERIENCE

HEIM Church Website - [GitHub Link](#) | [Website Link](#)

Dec 2024 - Present

Developer

- Designed and deployed the official HEIM Church website, supporting **100+ weekly users**
- Implemented multilingual support, live streaming, and secure payments, boosting engagement and accessibility
- Optimized site performance and responsiveness, cutting load times by **40%** across all devices

Hornet Helper - [GitHub Link](#)

Mar 2025 - Apr 2025

Developer, Team Leader

- Led a team of 3 to 1st place in a 15-team hackathon by delivering a full-stack study group platform with AI integration
- Built the front-end in React, allowing users to browse and join open study sessions with real-time chat
- Integrated AI-powered assistant to match users with study partners and provide on-demand academic support

SKILLS & CERTIFICATIONS

Programming Languages: Python, Java, JavaScript, SQL, C#, C, C++, Kotlin, HTML, CSS

Frameworks & Libraries: React, .NET, Flask, Spring Boot, Node.js, Express.js, Firebase, REST APIs, Tensorflow

Tools & Platforms: Microsoft Azure, Git/GitHub, Linux, Postman (API Testing), Figma, Visual Studio, Android Studio

Certifications: Google Cybersecurity Professional Certificate; CodePath (Software Engineer, Advanced Web Development)
